Learn Tableau and Be in Demand Always!

Tableau, the virtuoso's palette for data visualization, stands as the paragon in the realm of business intelligence tools. It transcends raw data, orchestrating a symphony of interactive and enlightening reports and dashboards. Picture it as the sculptor's chisel, carving intricate insights from a block of data, allowing you to shape compelling visual narratives that guide strategic decisions. Much like an artist at an easel, Tableau transforms data into a canvas, providing the means to paint a vivid picture of organizational performance, trends, and untapped opportunities. In the tableau of Tableau, data evolves into your medium, and visualizations are the strokes of your brush, constructing dynamic narratives that bring your data to life. Prepare to immerse yourself in the world of Tableau, where every report is a work of art, and each dashboard offers a panoramic view into the realm of possibilities sculpted by your data-driven endeavors.

Introduction to Tableau

- Overview of Tableau
- Data visualization and analytics
- Elements of the Tableau dashboard
- Understanding the significance of Tableau Desktop and Tableau Server
- Extensively work with data visualization using line, bar, area, stacked bar, and multi line charts
- Connecting with Excel data

Deep dive into Tableau Graphs

- Like Tables
- Graphs and Maps understanding the basics of Tree Map
- Histogram
- Filled Map
- Symbol Map
- Pie Chart
- Trend Lines
- Normal Tables and Multi measure Tables

Tableau Table Joins

- Understanding the conditions and methodology for joining Tables
- Knowledge of Multi Table Joins
- Trend Lines
- Normal Tables and Multi measure Tables

Working with Metadata

- Working with Table
- Creation of Calculated Fields
- Duplicating and renaming columns
- Conversion of data types
- Default aggregation

Hierarchy & Groups

- Tableau Hierarchy creation
- Static Group creation
- Deploying functions for Group creation

SevenMentor
PVT.LTD

06

Tableau Sorting

- The various options of Sorting in Tableau
- Sorting of Multi-dimensional graph
- Deploying combined fields and setting sorting priorities

Dual Axis Graphs

- Working with Dual Line Charts
- Multiline Chart
- Donut Chart
- Pie Chart
- Working with Measure Name and Measure Values
- Learning about the different type of Single Axis Histogram,
- Dual Axis Histogram

Histogram

- Learning about the different type of Single Axis Histogram
- Dual Axis Histogram

Pareto Chart

- Understanding how to design and work with Pareto Chart

Motion Chart

- Deploying Motion Chart for data that changes over
- time using x and y axes

Box Plot

- Representation of numerical data through quartiles using Box Plot

Funnel Chart

- Working with Funnel Chart for data that progressively reduces with each stage.

Waterfall Chart

- Deploying Waterfall Chart for understanding the cumulative effect of sequential values

Sets

- Understanding the concept of Set which is an entity whose composition is based on a computed condition

String Calculated Fields

- Learning how to perform various operations on Strings like concatenation Manipulation and analyzing with String Calculated Fields

Date Calculated Fields

- Working with Date Calculated Fields for performing operations like parsing Modifying and analyzing

Tableau Parameters

- Tableau Parameters
- Learning to use the dynamic values or parameters including
- What if Analysis Column Selection Parameters,
- Chart Selection Parameters

Tableau Actions

- Tableau lets you add interactivity and context to your data using Filter Actions, URL Actions

Dashboard Creation

- Working with the Tableau Dashboard and understanding the various concepts like Formatting,Containers, Navigations & Actions.

Tableau Architecture

- Understanding the basic Architecture of Tableau
- Learning about Tableau Desktop features,Tableu Server, working of Tableau and the various
- Tableau Products
- Tableau Products
- Tableau public Features
- Tableau Desktop personal features
- Tableau Desktop professional feature
- Tableau Server Feature
- Tableau File System
- Tableau Working
- Tableau Server Architecture

Connection Type

- Tableau Connections –Live Connection & Data Extract Connection,
- Comparing the two Live And Extract connection

Sharing Dashboard

- Learning to work on Tableau by sharing the dashboard with of online users

SevenMentor
PVT.LTD

Data Blending

- Methods to work with data from disparate sources, defining the relationship between the data and combining it in the optimal way

Dashboard Filter

- Working with various Tableau Filter options, understanding the Filter Dimensions and ways to make the Filter Global

Filter Deployment

- Taking the various data sources and implementing to blend the graphs, using Global Fliter for blending graphs

Tableau LOD Expression

- Tableau Level of Detail Expressions for combining aggregate & non-aggregate data, converting aggregate to non-aggregate data in Tableau 9.

MapBox Integration

- Integrating MapBox on Tableau for deploying Maps into Tableau Visualization

Table Calculation

- Understanding Tableau Table Calculation, familiarizing with Graph and View, learning about Context filter.

Aggregating Data

- Understanding the concept of aggregating data in Tableau, defining Table Calculation, Mark
- Labels, FORMAT function, working with String, Date and Logical Function, data disaggregating,
- forecasting.
- Defining Table Calculation

- Working with Drop Lines
- Mark Labels
- FORMAT function
- Working with String
- Date and Logical Function
- Data disaggregating
- Forecasting

Get Skills To Fulfill Every Role:

Every student at **SevenMentor** gets personalized guidance, Mentorship, and ample opportunities to address individual questions and concerns. All our sessions are designed to be engaging, interactive, and tailored to your learning pace, ensuring you grasp each concept with clarity.

Aniket Kulkarni

He have theorotical as well as practical experience in the field of ML. He did M Tech and have 10+ years of Industrial and Academic experience.
Currently working as Data Science Trainer. He have trained 2000 + professionals and students for the course of Python, SQL, Power BI, Machine Learning and Deep Learning.
