“SevenMentor” has improvised a tendency to cope with all International Standards within their courses, by engaging both ends of the industry for students, professionals, and individuals to corporate clients. The organization can jointly gives chance within their educational programs to meet the needs with projected desires of quick developing networking trade.

“SevenMentor” education techniques allow honing the abilities of the students which allow them to be equipped with the updated technology and standards of their environment. The group is a center for technical excellence with the kingdom of the art lab centers and a properly exquisite curriculum which gives them exposure in advance and enables them to be specific inside the certification enterprise.

The Institute’s strong placement cell has magnified its network amidst corporates over the years and is leveraged to realize nearly 100% placements of its students. Students frequently participate in field drives or joint field drives, conducted at neutral places or several company campuses. Students are allowed to attend the Pre-Placement speak with the corporate officers beforehand so that they get to perceive their profiles being offered higher and clarify their doubts. The Institute ensures the ability of employability for the scholars through its distinctive programs delivered by extremely practiced Academicians and Trade Resource Persons.

## Embark On A Transformative Journey Into **The World Of Advance Landscape Design With SevenMentor**

Are you ready to harness the power of advanced Landscape Design? Look no further.

Welcome to our landscape design training, where innovation meets opportunities and career possibilities are limitless. SevenMentor's landscape design course has been designed after monitoring insights from top landscape companies & offices. Especially working in landscape design sectors. Landscape design is the art of arranging the features of an area of land for aesthetic and/or practical reasons. It is often divided into two major components: hardscape (the non-living elements, such as pavers) and softscape (the living elements, such as flowers). Become a successful landscape designer with experience in residential and commercial projects outdoors and indoors. Develop your unique project profile to tackle new challenges head-on.

# UNLOCK YOUR LANDSCAPE DESIGN SKILLS AT **SEVENMENTOR INSTITUTE**

Equip yourself with the skills that can transform industries, influence decisions, and elevate your career to unparalleled heights.

Landscaping allows different species of plants to grow & nurture, providing them with an adequate amount of water, good-quality soil, and sunlight

Good verbal and written communication.

Negotiation and leadership ability.

Landscaping provides excellent means to create pocket parks, roof gardens, etc. to utilize the small open spaces in urban areas

Improves land management and reduces the environmental impact of urban living

A great designer is first and foremost adept at the science and art of verbal communication and can articulate ideas with the best of communicators

The crisis of space can be easily dealt with by creating a cost-effective and sustainable development of green plants and natural landforms.

A good designer must be able to read your reactions and adjust to your needs and desires, while always being concise and engaging in expressing their ideas.
